1) High School Action Plan

Information/Data Needed:

- a) Historical Information about prior decision (vote was brought to the board) around the high school programs' closure. Compare factors from then and now.
- b) Send copy of informational letter about SY 2019-10 to the board.
 - i) Currently 9 students are interested in staying with KOKL; 7 are unsure.
- c) Kū would like a 'personalized' inventory of each student that is intending to stay. For example, 9th grader--currently on track, grades, goals, strengths and needs, etc.
- d) Financial summary of each program (ex: what is the per pupil cost of each program)

Discussion Points:

- What is in the best interest of the organization and what actions are required to move in that direction.
- We are in an Evolutionary place in the life of our school - what we decide to do with our next steps are important, how we go about doing it and who are the people responsible for ensuring it happens are all equally important.
- PreK questions and concerns need some attention by Susie and Kapoula as they have further work to complete.
