

**Kua O Ka La**

A New Century Public Charter School

**4 steps: 1x1 Chromebook take-home program – RETURN COMPLETED**

**Welcome to the Kua o ka La (KOKL) 1x1 Chromebook computer take home program.**

In 2014-15, we assigned an individual computer (1x1) to each student in grades 6 to 12 and a blended online curriculum for math and social studies. Our goal is for every student to learn technology skills to empower them for academic and personal success. We would like every student to take home and use their Chromebook computer, unless they already have an internet-enabled computer available for that purpose. For questions or comments, please contact the Campus Education Director, Richard Hogeboom, by email at [likeke@kuaokala.org](mailto:likeke@kuaokala.org) or call 965-2193. -Mahalo
